1) Acceder a:

<https://azure.microsoft.com/en-us/free/services/machine-learning/>

The screenshot displays the Microsoft Azure website's landing page for machine learning. At the top, the Microsoft Azure logo is on the left, and navigation links for 'Contact Sales: 0800-56012', 'Search', 'My account', 'Portal', and 'Sign in' are on the right. Below the header, a horizontal menu lists various Azure services: Overview, Solutions, Products, Documentation, Pricing, Training, Marketplace, Partners, Support, Blog, and More. The main content area features a dark background with the text 'Build, train, and deploy machine learning models with an Azure free account' in large white font. Below this, it says 'Get started with 12 months of free services'. Two buttons are present: a prominent green 'Start free >' button and a smaller, less visible 'Or buy now >' link below it.

2 Add technical support ^

For one-on-one technical support, you'll need a [support plan](#). Whether you're new to Azure or already building business-critical applications, our support plans provide expert guidance from Azure engineers who will work with you to prevent and solve problems. By upgrading to a plan you agree to the [offer details](#).

- ☐ **Getting started on Azure - Developer plan** \$29/month
For developers or teams looking to quickly and effectively get started on Azure, technical support is available weekdays from 9:00 AM to 5:00 PM with initial response times under 8 business hours.
- ☐ **Production use of Azure - Standard plan** \$100/month
For teams running production applications, get 24x7 technical support and fast initial response times under 2 hours.
- ☐ **Business-critical use of Azure - Professional Direct plan** \$1,000/month
For business-critical applications, a cloud advisor provides guidance and advocacy to help improve reliability and optimize costs. You also get 24x7 technical support with the fastest initial response times under 1 hour.
- ☒ **No technical support, or I am already covered through Microsoft Premier support.**
